

The Academic Advisement Report (AAR) displays the academic requirements for the student’s plan and the student’s progress toward completion of that plan. The AAR in PeopleSoft is what was called a Degree Audit in Orion.

The AAR is typically generated through a batch process. However, if the student was not previously term activated and the AAR failed to generate, then when they attempt to enroll, they will get an error that says, “Requirements not available at this time” and the advisement reports (ADV and PLN) would need to be manually generated.

You should always view an AAR from the Request Advisement Report screen instead of the Student Services Center, because generating the AAR from this screen allows you to immediately see any changes that were made to the AAR.

Step	Action
1.	Navigate to Main Menu > Campus Solutions > Academic Advisement > Student Advisement > Request Advisement Report.
2.	Click the Add a New Value tab.
3.	Enter the student ID .
4.	Enter the desired Report Type (ADV) .
5.	Click Add .

Step	Action
6.	Click Process Request .

General Education Communications (RG8067)

Must complete Communications requirements in Category A AND Category B AND Category C as shown below for a total of 9 hours/units. A minimum grade of "C" or better is required in all coursework.

Communications Category A

Not Satisfied: Must complete one of the following courses:

- Units: 3.00 required, 0.00 taken, 3.00 needed

The following courses may be used to satisfy this requirement:

Course	Description	Units	When	Grade	Status
ENC1101	ENGLISH COMPOSTN I	3.00			
ENC1101C	ENG COMP I ENHANCED	4.00

Communications Category B

Not Satisfied: Must complete one of the following courses:

- Units: 3.00 required, 0.00 taken, 3.00 needed

The following courses may be used to satisfy this requirement:

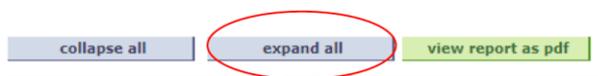

Course	Description	Units	When	Grade	Status
ENC1102	WRITING ABOUT TEXTS	3.00			
LIT2000	LIT IN HUMANITIES	3.00			

View All |  First 1-2 of 2 Last

Courses are displayed as taken, in progress, or planned using the icons below:

If a student is enrolled in a course it will be displayed as In Progress. The requirement will be collapsed and will populate as Satisfied, because the system assumes that the student will be successful. If a student says that they are ready to graduate, you will need to use the Expand All option to see if an area is collapsed due to a course that is currently in progress.

If the student is ultimately unsuccessful in the course, the course is removed from that requirement and populates in the **Additional Courses – Not Used toward Plan Requirements** area at the bottom of the AAR.

In a requirement like Communications above, if Communications Category A is satisfied, but Communications Category B is not, then Communications Category A collapses, but the overall requirement stays expanded. Once all lines in the requirement have been satisfied, then General Education Communications will collapse as satisfied.

Step	Action
9.	Click View All to see all course options if there are more than 10 choices or click Last to scroll to the last page of course options.
10.	Each course is listed as a hyperlink, which you can click to see additional course details from the catalog.

Each Requirement Group (RG) can contain several Requirements (RQ), which can each contain several Requirement Lines. To satisfy the requirement line below, students must complete 3 units (one course) from the list of approved courses. NOTE: On the AAR credit and clock hours are listed as units.

Humanities Category B

Not Satisfied: Must complete one of the following courses:

- Units: 3.00 required, 0.00 taken, 3.00 needed

The following courses may be used to satisfy this requirement:

Residency Requirement: This section insures that students have taken 25% of their total hours/units here at FSCJ.

Residency Requirement (RQ1254)

Must earn at least 25 percent of total college credit hours/units required for the academic plan from Florida State College at Jacksonville. Credit by examination and credit by portfolio development do not count toward this residency requirement.

Residency Requirement

Not Satisfied: Must earn a minimum of 15 hours/units from Florida State College at Jacksonville to satisfy the Residency Requirement for this academic plan.

- Units: 15.00 required, 3.00 taken, 12.00 needed

Foreign Language: Displays courses that students can choose to satisfy the foreign language requirement for AA students and Bachelors students. When the foreign language requirement is waived, the Foreign Language area on the AAR will be collapsed, but you will not see the high school foreign language classes listed here because the AAR only displays college-level classes. NOTE: The foreign language waiver would have to be re-evaluated if a student went from being an AA student to a Bachelor’s student.

Foreign Language (RG8064)

Not Satisfied: Students must complete the Foreign Language requirement as shown below.

Foreign Language (RQ1234)

Not Satisfied: In accordance with Florida Statute 1007.25, students initially entering a Florida College System institution in 2014-2015 and thereafter who wish to obtain an Associate of Arts degree must demonstrate competency in a foreign language pursuant to guidelines set in Florida Statute 1007.262. Competency is demonstrated by completion of a minimum of eight semester hours/units in a foreign language at the College level or having completed two high school credits in the same foreign language.

Students may use Sign Language I and II (ASL 1140 and ASL 1150) to satisfy this foreign language requirement, however, there is a possibility that Sign Language courses may not count toward the foreign language requirements of the university.

The college credit language courses used here can also also count as Associate of Arts electives.

Chinese

Not Satisfied: Must complete two of the following courses:

- Units: 8.00 required, 0.00 taken, 8.00 needed

The following courses may be used to satisfy this requirement:

Course	Description	Units	When	Grade	Status

Additional Requirements: Plans that have additional requirements and any college-wide graduation requirements are also listed on the AAR.

Associate in Arts Graduation Requirements (RG8073)

In order to be awarded the Associate in Arts degree, students must meet the requirements shown below. Additionally, students must have fulfilled all financial obligations to the College before they may graduate.

Residency Requirement (RQ1249)

Not Satisfied: Complete at least 25 percent of hours/units required for the degree at Florida State College at Jacksonville. Credit by examination and credit by portfolio development do not count toward this residency requirement.

Additional Courses: Any of the courses that the student has completed (satisfactorily or not) in a particular career (e.g. CLK, CRED, etc.), but do not count toward completion of the plan, will display in the Additional Courses area. These are considered **Not Used** courses.

Additional Courses (RG8120)

This area lists all courses not used by this Associate in Arts Academic Plan, in excess of the requirements for this Academic Plan, all transfer courses, and all course completions earned through test scores.

Not Used toward Plan Requirements (RQ1944)

Courses Not Used toward Plan Requirements. The following may be listed:

- a. Grades of F, FN, W, and/or D, if not an elective.
- b. Prior attempts of repeated courses.
- c. Courses that are not part of this academic plan.

Courses listed that are NOT part of your Academic Plan of Study are NOT eligible for Financial Aid. Discuss the impact on tuition and Academic Plan of Study with an advisor.

External Courses: The External Courses area lists all Transfer Courses from prior institutions and course completions earned from Test Scores.

Embedded Technical Certificates: Some Associate in Science (AS) Degree AARs will display the AS degree requirements as well as additional requirements for related Technical Certificates (TCs). In PeopleSoft, we have “embedded” those TCs in their corresponding AS degrees. Since students only have one active plan per career in PeopleSoft, FSCJ uses the embedded TC to capture a student’s progress in those TCs, and to let the

Viewing an Academic Advisement Report (AAR)

student see their own progress. This also allows students to possibly enroll in courses needed to complete those certificates. Student Records staff will validate completion of those TCs so that students can graduate with them. Whether or not the student earns the TC, the student can still graduate with the A.S. degree. If an AA student wants to complete a technical certificate, the TC would have to be requested to be added to their AAR.

Authorizations for Student Exceptions (Course Substitutions): Course substitutions, also called Authorizations for Student Exceptions in PeopleSoft, are denoted by an indicator in the Notes column of a course list on the AAR. Students or advisors can click on the blue hyperlink in the Notes column to see what the course substitution is for. (A note is included because course substitutions do not always replace the class you want it to if the student still has several options to take. It may simply add it to the area.) An Authorization will list what is being added or replaced and the Dean or Program Manager that approved the substitution.

None of the course substitutions in Orion migrated into PeopleSoft. If a student had a course substitution in Orion that has not been moved to PeopleSoft please have them submit a help ticket.

Core Electives (RQ1623)

Must complete Core Electives requirement as shown below for a total of 36 hours/units.

▼ **Completed Core Electives**

If you click on the Authorization, it will show the class subbed or waived and who gave permission to do it.

Authorizations are attached to a plan. If a student changes plans they will need new authorizations.

NOTE: The AARs are designed to count everything that “could” apply to a degree. You may have a student ask to exchange or substitute one Humanities for another to bring up a GPA. It will not change the GPA. If both classes have the AA attribute, they are both already counting.

Split Credits: The AAR is designed to split a student’s credits when needed so they can use all of them. In this example the student takes a 4 credit science but only 3 credits are needed for the area. The 4th credit is

moved to the elective area or the “Not Used toward Plan Requirements” area so it can be used a sub or elective if needed.
